

Certificall

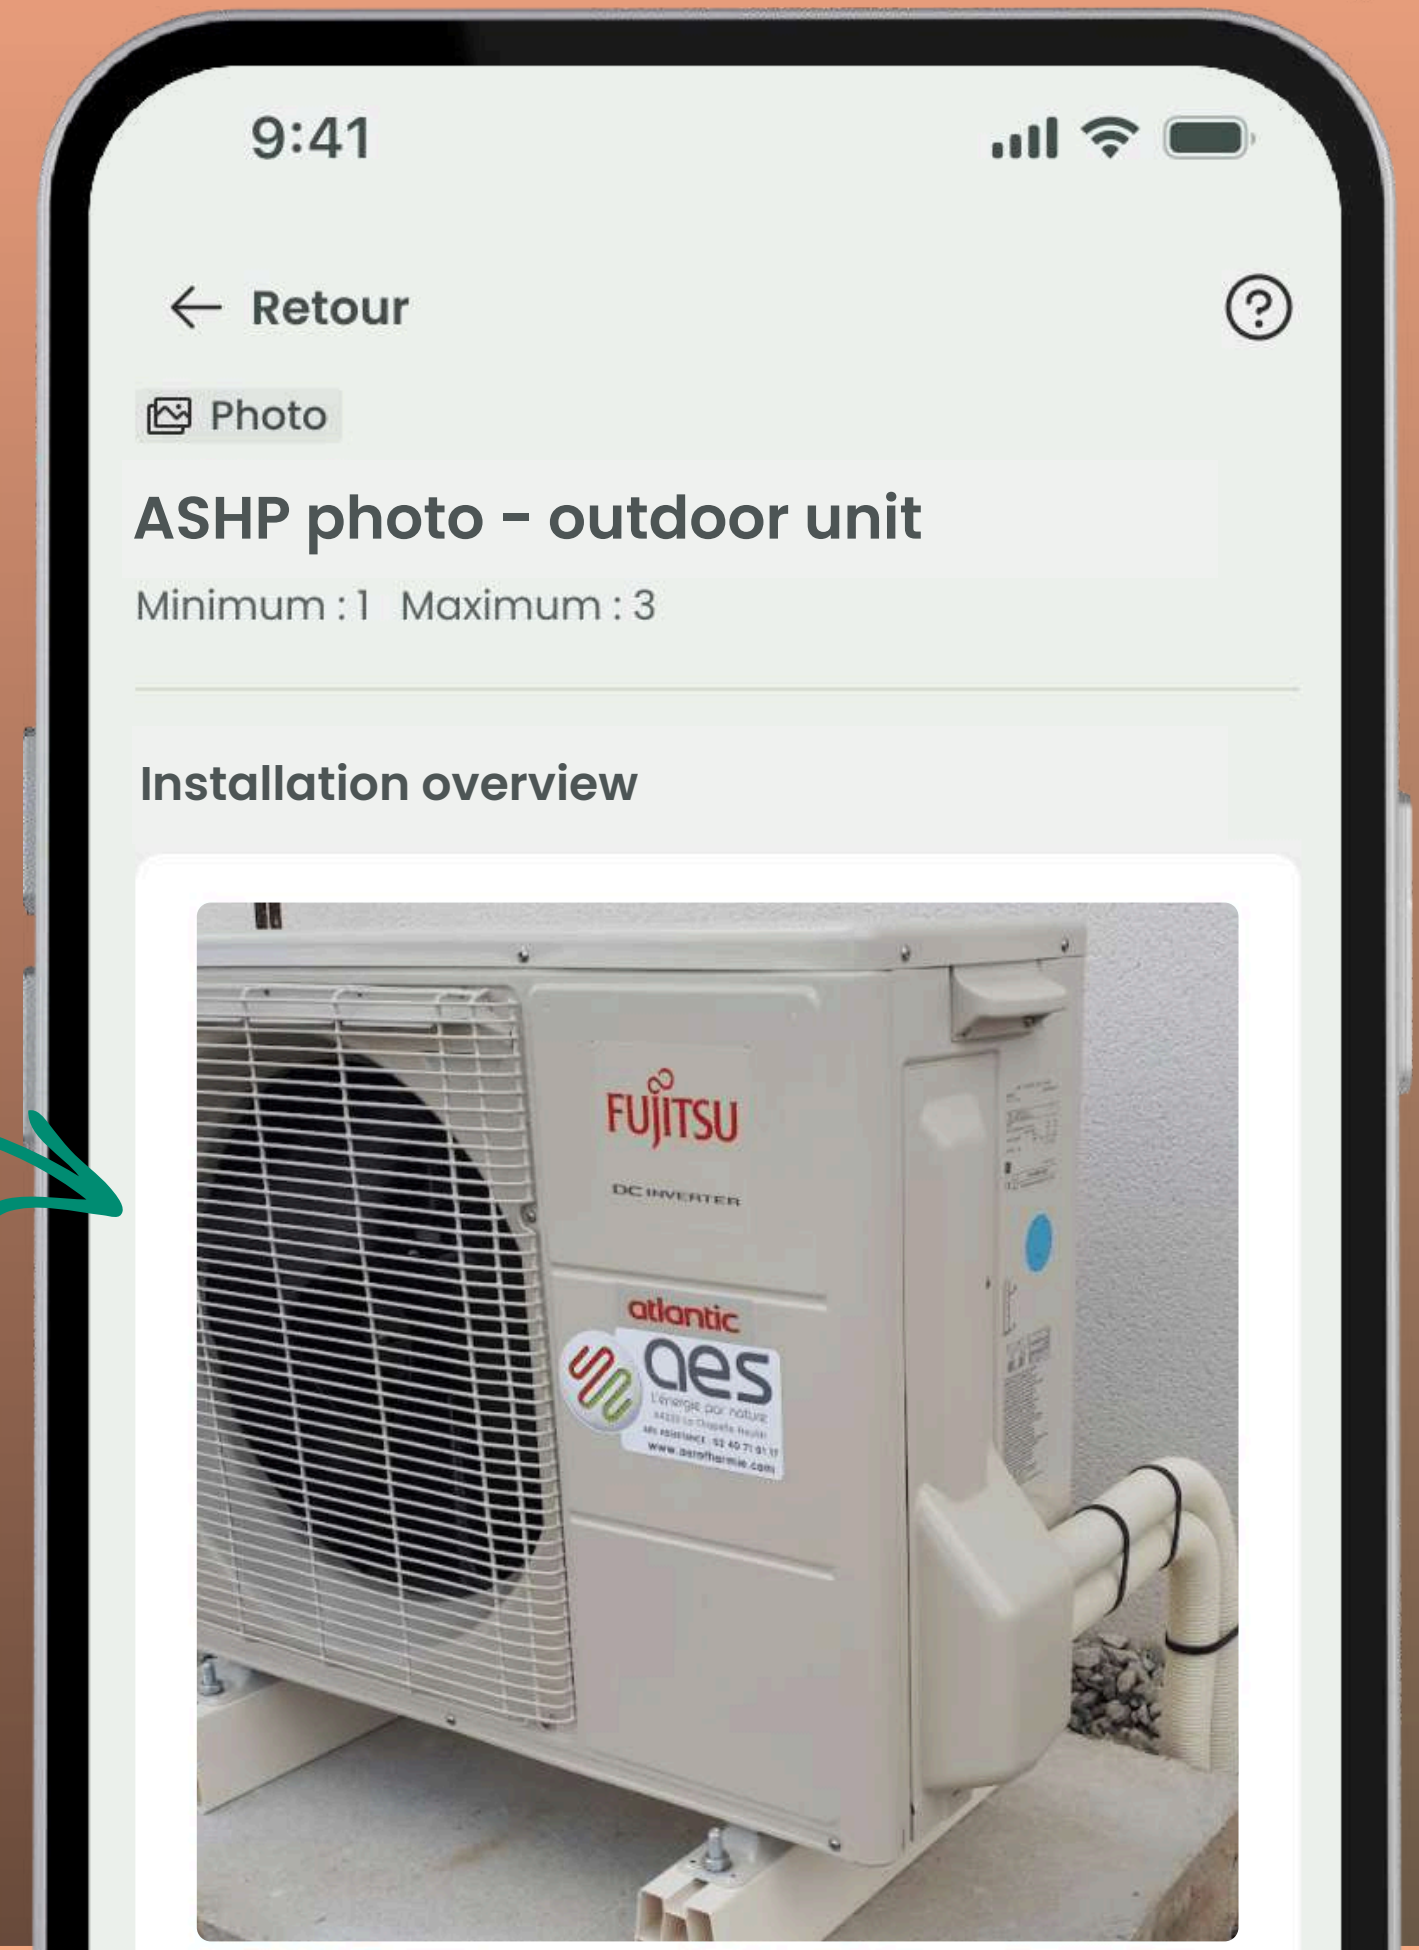

**Digitise your retrofit inspections
with certified photos
and videos**

ECO and retrofit scheme stakeholders must prove that works were carried out to get their measures approved...

Certify the photos of your retrofit projects

Digital evidence that is easy to generate and **legally recognised** in the EU and the UK.

With  **Certificall**

A legally recognised solution

A European and UK legal framework supporting digital evidence and data certification

eIDAS

**A clear legal framework
at EU level...**

**The eIDAS 2.0 regulation sets
stronger standards to
guarantee the reliability of
digital evidence**

...carried over into UK law

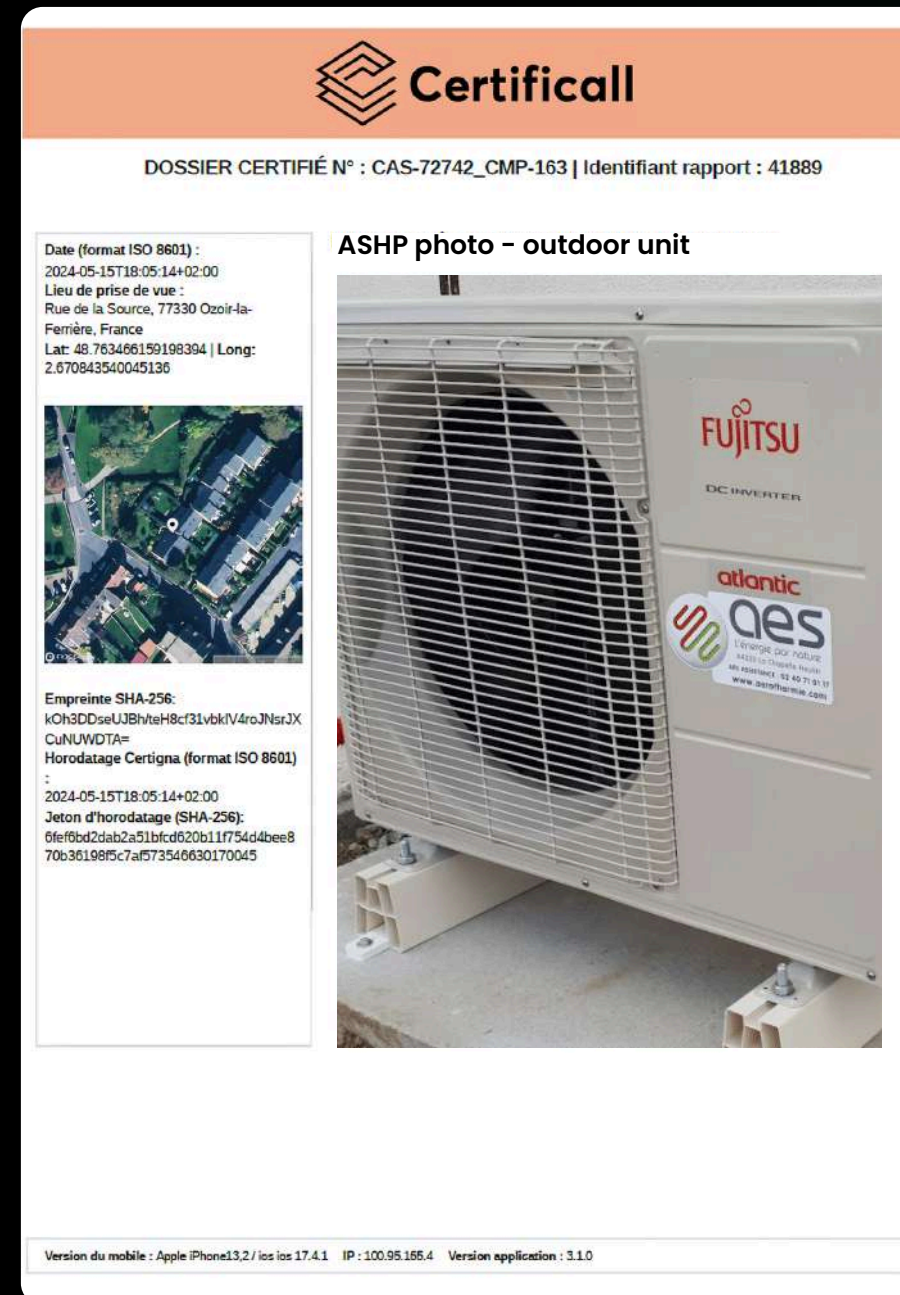

UK eIDAS (retained EU law)

EU qualified trust services, including qualified timestamps and electronic seals, continue to have legal effect in the UK (ICO guidance).

The solution

A *simple & intuitive* mobile app for every professional

1. Take the photo

2. Geolocate

3. Timestamp in line with the eIDAS regulation

One click,
and it's checked!

Build data-collection workflows for every retrofit measure

CertiLink : easy access for your installers

1

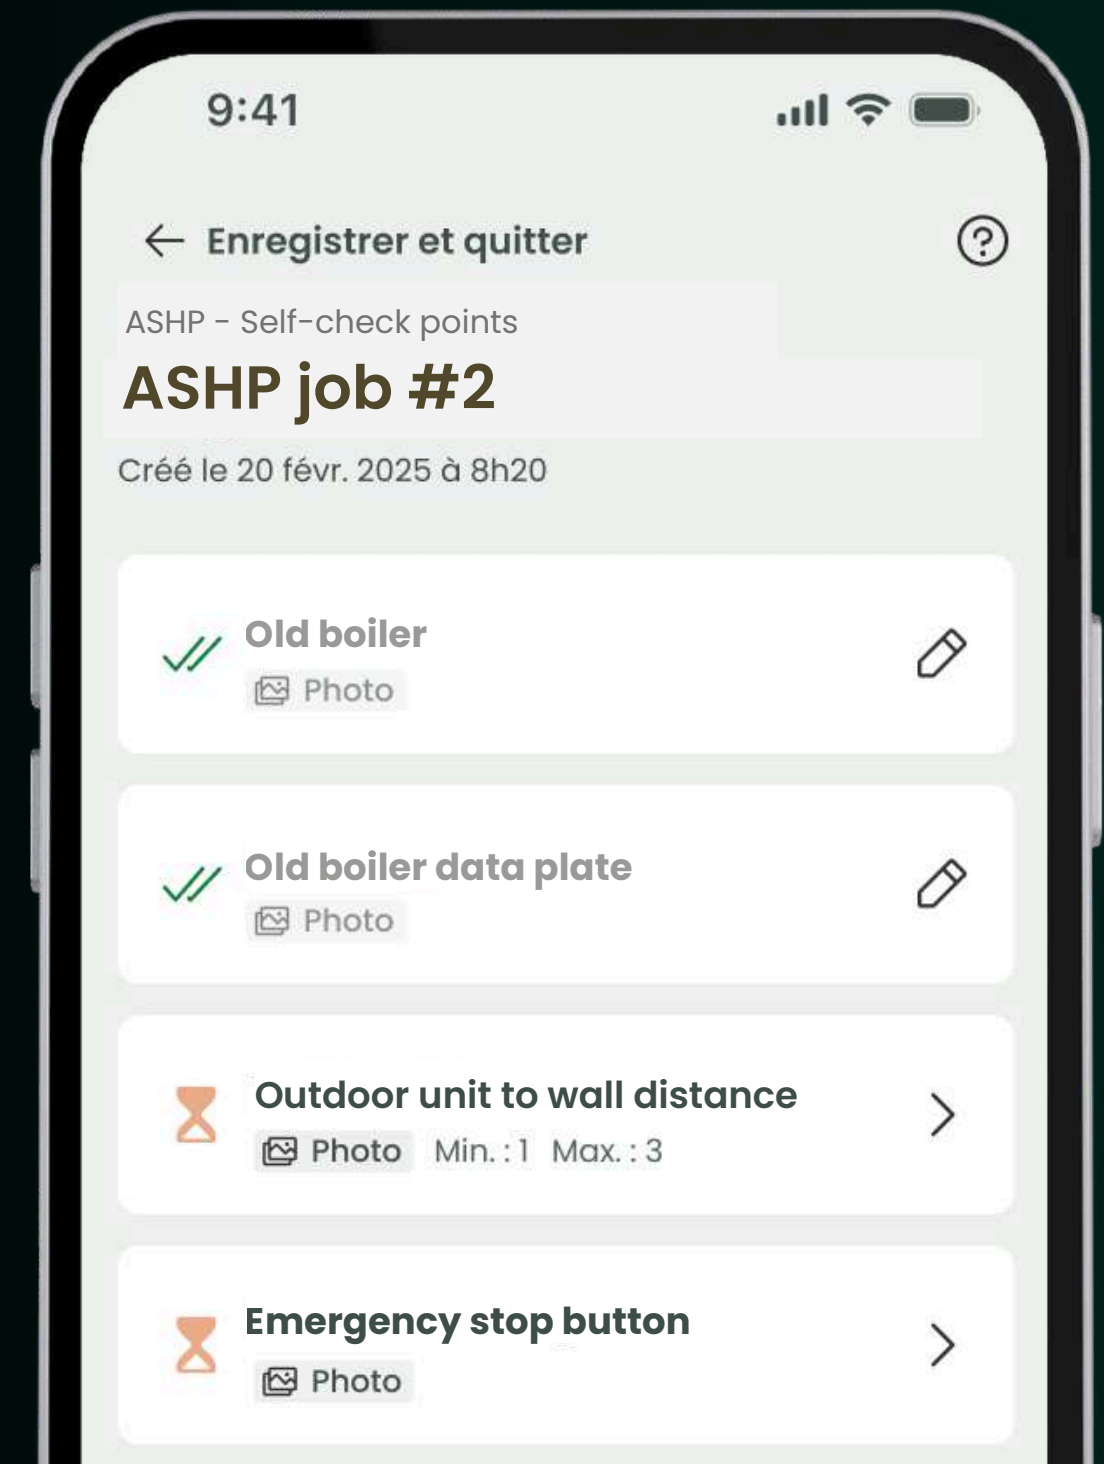

CertiLink is a **secure link**
you can send to your installers
by email or text message

A screenshot of a web browser window with a light beige background. At the top left, there are three colored circles (red, yellow, green). The main content area has the text "Enter reference" in bold. To its right is a text input field with the placeholder "Reference". Below these is a large orange button with the text "Create a secure link".

*With CertiLink, your installers
open the app straight away,
no login*

2

Single-use link

Each link is tied to a specific workflow

Access your account and download your certificates
